I played Resident Evil in the 90s, Silent Hill in the early 2000s. I even played BlackSouls and Obscure a few years back. This is none of them. Horrible animation, confusing (not challenging) puzzles, clunky AI. There isn't even a sprint\jog\speed walk feature, you just walk at a leisurely pace while zombies try block you into a corner to punch you to death. Very let down by this release.

It has potential and I know the dev team is very passionate about the genre, but this feels like an alpha, not a finished product.
